INDA’s Elementary Nonwovens Training Course is designed for professionals who are new to nonwovens. Led by an industry and nonwoven expert, the Elementary Nonwovens Training Course uses personal instruction, visual aids, industry samples, and plant production videos to teach the essentials.

Attendees will gain a broad overview and be able to appreciate the diversity of nonwovens and use the nomenclature with confidence. The course includes fiber information, production methods, nonwoven attributes and differences, the value of finishes, world trends, and outlooks. Gain the versatile and flexible business training to improve:

- Engineered fabrics knowledge
- Career opportunities
- Organizational development
- Industry connections

*The elementary training course is offered three times annually.

What Industry Professionals Say About INDA Elementary Training

“This elementary course was a good, basic introduction into the industry and the various ways a nonwoven is produced and converted.”
– Nicole Thompson, Quality Excellence Manager, Georgia-Pacific Nonwovens

“This course is excellent training for all members of a sales team within a nonwovens manufacturer.”
– Robert Greer, Sales Manager, McAirlaids, Inc.

“This class gave me the basic understanding I was looking for and given its effectiveness, I am likely to talk to my company about signing me up for the intermediate training course. Very happy with everything from the course.”
– Will Matthews, Business Development Manager, Norafin (Americas) Inc.

“Great class to gain a high level understanding of nonwoven engineered fabrics and the basic understanding of their processes.”
– Tom Hicks, Technical Service Manager, Freudenberg Performance Materials
