## IT'S WHERE INNOVATION LEADS TO EXHILARATION.

### Immerse yourself in topics that change the world – and your career:

- » Diapers: Smart & Sustainable
- » Game-changing adult incontinence products
- » Advances in feminine hygiene
- » New standards and labeling language
- » AI training for nurses
- » Global markets of AI and an AI Workshop
- » Industry threats and opportunities
- » Skin health
- » Odor control testing and mitigation

*Register, reserve a tabletop, and book your hotel room now!*

**Visit [inda.org/events/hygienix17](http://inda.org/events/hygienix17)**

» » » » Innovations are emerging in the world of hygiene like never before – and Hygienix™ is your chance to stay on top of the revolutionary changes! Join us November 6-9 in Austin, Texas – the ideal setting for forward thinking on adult incontinence, smart hygiene, feminine hygiene, new markets, new technologies, new materials, and odor control. Connect with industry drivers. Meet peers who are as excited as you about new ideas affecting the lives of consumers of all ages. Mark your calendar now – and prepare to be amazed!

**Who will take top prize?** The Hygienix Innovation Award™ recognizes innovation in areas such as consumer or institutional end products, end product components and fabrication techniques. Cast your vote and applaud the winner at Hygienix™ 2017!

# KEYNOTE: BRAND DISRUPTORS

» » » **LAURENCE DRYER, PHD**

VP R&D, The Honest Company

## *Happy and Healthy Lives: The Honest Revolution*

The Honest Company broke ground in the hygiene and personal care markets, positioning their hygiene and personal care products as earth-friendly, safe, accessible, and high performing. Their message of “ethical consumerism” resonated with consumers to create a multi-billion dollar company. Gain an insider’s perspective as to how they broke through this niche market...all without using traditional media.

» » » **DIANA SHEEHAN**

Director, Kantar Retail

## *The Evolving Role of Private Label in a Branded Retail World*

Aldi, Trader Joes, and Lidl are changing the role of private label in the U.S. with many retailers embracing private label to differentiate and increase their bottom line. This insightful presentation will explore the trends in private label across channels, the evolution of private label strategy, consumers’ perceptions, and best case studies for retailer and manufacturer collaboration.

**AS ALWAYS, THE HYGIENIX™ CONFERENCE AFFORDED MY COMPANY AN EXCELLENT OPPORTUNITY TO MEET WITH KEY SUPPLIERS AND CUSTOMERS IN THE PERSONAL CARE INDUSTRY..**

– **William Norman**, Vice President & GM, North America, Clopay Plastic Products Company, Inc.

## ABSORBENT HYGIENE PRODUCTS WORKSHOP

*An all-absorbing learning experience.*

### ASIA HAS NEW DATA TO SHARE!

Get the inside story on industry developments in baby diaper and adult incontinence products from around the globe.

» » » **CARLOS RICHER**

CEO/Director, Richer Investment S.A. de C.V.

» » » **EDUARDO LEAL**

Managing Director, Diaper Testing International

which diapers  
make the grade?

# LEARN ABOUT BREAKTHROUGHS ACROSS GENERATIONS AT HYGIENIX™ 2017.

» » » SION AGAMI

Research Fellow (Feminine Care),  
Procter & Gamble Company

## *A Market Research Symphony Is Required Versus Having an Instrument Virtuoso, To Create a Winning Holistic Product Experience in Feminine Adult Incontinence*

Holistic adult incontinence innovation is possible even in the uncertain world of upstream R&D. Tapping into relevant consumer research at every design stage is critical to create incontinence products that resonate with consumers. Improving these products can transform the consumer experience for higher confidence and self-esteem. Gain an inside look at how The Procter & Gamble Company achieved their latest innovation and success.

» » » TRACY STEWART

Director General, AHPMA (Absorbent Hygiene  
Manufacturers Association)

## *Challenges, Strategies and Successes for Continence Care in the UK*

Nurses and service providers are being tasked to do more without adequate training. Proper continence care is critically important for patient health and well-being. In the UK, governmental bodies and advocacy agencies are raising awareness and understanding for early continence training. Discover the strategies they are employing and their promising results.

» » » TOM WILSON

Managing Partner, CenterBrain Partners, Inc.

## *New to the World Incontinence Product: Technology, Tenets and Tools*

Experience a new technology that has been in the pipeline for nearly three years. It promises to change competition in the adult incontinence market similar to the market disruption of pull-on incontinence underwear in the late 1990s. Gain an inside look at this invention, which will be demonstrated via 3D video, and learn how it differs from today's products...and how it could change the market landscape.

» » » STEVEN GREGG, Ph.D.

Executive Director, National Association  
For Continence

## *AI Standards – Mission Impossible or Not*

Adult incontinence products are increasingly needed in the assisted living and home care environment. Medicaid will reimburse care facilities for these products, but with the mounting pressure of cost cutting, cheaper options are being sought. Ensuring quality products is vital for consumer health and the need for Quality Performance Standards is more urgent than ever. Join us for keen insights into this relevant and important issue.

» » » JANET O'REGAN

Director, Nonwovens Marketing,  
Cotton Incorporated

## *Global Markets for Adult Incontinence Products: 2016 – 2030*

Learn about the global adult incontinence market to better understand the similarities and differences among regions and the countries studied (United States, Mexico, UK, France, Germany, China, and Japan). Explore the growth prospects for incontinence products through 2030, which includes demographics, economics, consumer usage, and shopping habits and needs. This fascinating analysis of the performance gaps can spark new ideas for improvements and innovations.

» » » PETER CURRAN

Chief Technology Officer, Simavita Limited

## *Everyday Monitoring of Incontinence Products: A New, Disruptive Technology*

Knowing when to change an adult incontinence product or diaper can be challenging for medical professionals, service providers and parents. Discover a new technology that could offer a simple, low cost, everyday solution with no impact on product performance – and see how effective analytics via smart apps can be the wave of the future in hygiene care.

» » » IOANNIS HATZOPOULOS

Global Baby Care Sustainability  
Communications, Procter & Gamble Company

### *Leading the Upcycling of Absorbent Hygiene Products*

Companies strive every day to reduce the carbon footprints of their company and their consumers. Learn how the Procter & Gamble Company and their Italian partners are able to upcycle nearly 100 percent of used diapers. Their proven technology has the potential for scale in the real world and promises to align with their vision of zero waste.

» » » DONALD SHELDON

Principal and Chief Technology Officer,  
Advanced Absorbent Technologies, LLC

### *The Quest for the Perfect Pulpless Absorbent Product*

With the invention and addition of superabsorbent polymers (SAP) into disposable baby diapers in the late 1970s, there has been an active push to reduce or even eliminate absorbent pulp from disposable diapers. Explore SAP's evolution and improvements in product absorbency and performance. Appreciate the advantages and limitations SAP brings to today's pulpless products and suggested areas of improvement.

» » » NATHALIE NIBBE

Senior Consultant, Olfasense GmbH

### *State of the Art of Odor Testing with a Special Focus on the Hygiene Industry*

Odor is a hot topic in the hygiene industry. Explore different testing methods companies use to identify, evaluate, replicate, and scientifically prove odor reduction in hygiene products. Increase your awareness of odor test measurements using GC-Sniffing and standardized EN, ASTM and ISO methodologies. These and other methodologies with supporting case studies will provide a holistic overview of odor testing in the hygiene industry.

» » » DARIUS DEAK

Account Manager, Bostik, Inc.

### *The Nose Knows: Using the Human Nose to Detect Product Odor in Disposable Hygiene*

Explore how assembling and training a panel of odor testers can serve as an effective test to identify hygiene odors. Gain insights in the use of analytical test methods paired with a sensory panel to determine the origin of odor in the absorbent hygiene market. Take away real-world examples.

**HYGIENIX™ 2016 EXCEEDED MY EXPECTATIONS. USUALLY I TAKE AWAY ONE OR TWO FINDINGS, BUT THIS YEAR I TOOK AWAY MANY MORE CRITICAL FINDINGS DUE TO THE HIGH INTERNATIONAL PRESENCE, VALUABLE PROGRAM CONTENT, AND REPRESENTATION FROM A DIVERSE SET OF ATTENDING COMPANIES.**

– John F. Poccia III, Associate R&D Director, Johnson & Johnson Consumer Inc.

» » » MICHAEL MCGINLEY

Laboratory Director, St. Croix Sensory, Inc.

» » » LAURA KIELY

Senior Applications Engineer, H.B. Fuller

### *Making Sense of Odor Measurement for Better Product Designs*

Whether it's preventing parents from smelling dry odors when opening a bag of baby diapers or eliminating wet odors to be discrete, there are numerous ways to measure odors. Which method best represents the consumer sensory experience? Gain insights from odor experts from St. Croix Sensory and H.B. Fuller as they review industry odor tests, measurements and case studies from the package to disposal.

# BE INSPIRED BY WORLD-CLASS SPEAKERS!

» » » **PRICIE HANNA**

Managing Partner,  
Price Hanna Consultants LLC

## *Exploring the Impact of New Generation Nonwoven Technologies on the Global Hygiene Industry*

Gain insights into how several new nonwoven technologies such as spunlaced, carded air-through bonded and competing materials for ADL and elastic components are impacting premium hygiene products. Gain market perspectives on the effect of new spunmelt polypropylene technology and the return on capital investment for early adopters who purchase new generation lines. Hear which regions offer the best opportunities for different types of spunmelt polypropylene technologies.

» » » **PAOLO OCLEPPO**

Segment Manager, Sandvik Hyperion

## *Smart, Digital, Connected Hygiene Converting Lines*

People interact daily through multiple technical devices – and so does the industrial sector. Explore the exponential growth of the Industry 4.0 trend and hear how it's implemented in different sectors to connect machines, data and support operational decisions. Case studies highlighting the benefits reported by converting line manufacturers and hygiene product producers will reveal how to bring intelligence to critical hygiene systems such as glue, bonding or cutting.

» » » **KAREN FINGERMAN**

Professor, University of Texas at Austin

## *Millennials Growing Up and Boomers Growing Older: Absorbent Hygiene Products in a Changing Population*

Millennials (aged 18 to 34) are both laggards and trendsetters. They are behind previous generations when it comes to leaving home, getting married, finishing education and settling into a career. But millennials are trendsetters when it comes to diversity – and different groups of this powerful segment may be set on distinct paths. Find out how these differing trajectories can impact millennials and their parents' current and future well-being.

» » » **JAMES SMITH, Ph.D.**

Chief Forecaster, EconForecaster, LLC

## *Why E-Commerce Won't Replace All Retail Stores*

How do nimble, internet savvy retail firms survive and thrive while competing against e-commerce firms and divisions of "brick and mortar" stores? Despite reductions in retail space, bold new marketing schemes and ever more carefully targeted customer loyalty programs will win over consumers. Tap into the latest retail changes and strategies.

» » » **MICHAEL MITCHELL**

Principal Research Scientist, BASF Corporation

## *New Test to Evaluate the Effectiveness of a Diaper's Core System*

Explore how a simple laboratory test can effectively simulate the performance of a diaper's core system as if it were worn on a standing baby. Most current laboratory tests are designed to show differences in diaper cores, and may not necessarily indicate how well the diaper core is performing in real-world use. Discover a new diaper test proven to be both predictive and descriptive of the performance of many different diaper core constructions.
