

# **Nonwoven &** **Technical Textiles**

Colour Publications, the publishers of Colourage, one of the world's premier journals for textile and garment processing announces the launch of **NONWOVEN & TECHNICAL TEXTILES**, Asia's first comprehensive magazine addressing the needs of the fast-growing international nonwoven and technical textiles market. The magazine shall be launched in mid-October 2007 during INDA's "Link with India" conference.

The magazine will cover the latest news, developments and technologies in related fields. It will also contain a separate peer-reviewed section for research and review papers in nonwovens, advanced fibrous materials and technical textiles.

The goal is to make it a most preferred one-stop technical international magazine in nonwovens and technical textiles, which will cater to the needs of the industry and the academia.

The Editor-in-chief of the journal is Dilip Raghavan, Editor-Publisher of Colourage, India, and the Founding Editorial Board Chairman is Dr. Seshadri Ramkumar of Texas Tech University, who will be responsible for the Peer-Reviewed section of the magazine.

Further details can be obtained by contacting Dilip Raghavan at [colorpub@vsnl.com](mailto:colorpub@vsnl.com), or by fax on +91-22-2430 0601.
