

# INDA's Nonwoven **FILTER MEDIA** Training Course

**May 5-6, 2015**  
INDA Headquarters  
Cary, North Carolina

This training course is designed for industry professionals who desire to learn more about the development, testing and application of nonwovens in filtration.

*Instructor: Dr. Christine Sun, the Principal of TRA is a globally recognized technical and market expert in nonwovens and filtration industry. She was the technology director of liquid filtration at Donaldson from 2011-2013, and R&D manager at Freudenberg Filtration Technologies from 2004-2011. With extensive experience from both industrial and academic services, Dr. Sun has broad and in-depth knowledge as well as hands-on experiences in the areas of advanced nonwovens, nanofibers and filtration technologies.*
