

SEPTEMBER 12-14, 2017
Raleigh, NC

RISE® 2017 Table of Contents

Manufacturing Technologies

- [Leaving the Comfort Zone: Why We Must Rethink Our Way of Developing and Implementing New Products](#)
Bernd Kunze, *Reifenhäuser REICOFIL GmbH & Co. KG*
- [Barriers to Adoption and the Technology Infrastructure for Smart Manufacturing](#)
Michael Gallaher, Ph.D., *Research Triangle Institute (RTI)*

Moisture Management

- [Drying Nonwoven Webs by Mechanical Vibration and Not Heat](#)
Ayyoub Momen, *Oak Ridge National Laboratory (ORNL)*
- [Novel Surface Modification Technologies for Moisture Management](#)
Hardy Sullivan, *Crypton Inc.*

3D Nonwoven Structures

- [High Recovery with "Neat" Polypropylene Spun-blown® Fibers](#)
Douglas Brown, *Biax-Fiberfilm Corporation*
- [Recent Trends in Three-Dimensional Nonwovens](#)
D. Keith Osteen, *Smith, Johnson & Associates*

Inventing the Future

- [Realizing a Moore's Law for Fibers](#)
Yoel Fink, *Massachusetts Institute Of Technology*
- [The Future of Nonwovens](#)
Behnam Pourdeyhimi, *North Carolina State University College Of Textiles*

Advanced Materials - Performance

- [Sustainable Innovation with PLA Fibers - Hygiene & Beyond](#)
Aman Kulshrestha, *NatureWorks LLC*
- [Sustainable Innovation with PLA Fibers - Hygiene & Beyond](#)
Tim Vanyo, *NatureWorks LLC*
- [Solutions for Soft, Efficient Nonwovens Produced with Breakthrough PE Meltblown Fiber Resins](#)
Viraj Shah, *The Dow Chemical Company*
- [Advanced Elastomerics Exhibiting Superior Stretch and Recovery Properties](#)
Ping Hao, *Uniquetex LLC*

Wetlaid Nonwovens

- [Recent Trends in Wetlaying with Complex Fluids](#)
Miika Nikinmaa, *The Nonwovens Institute*
- [Nonwovens and the Sustainability Imperative](#)
Alexander Koukoulas, *A2K Consultants*
- [Reduced Graphene Oxide Based Membrane that acts as Molecular Sieve for Desalination](#)
Arsheen Allam, *GOLeafe*

Industry Hurdles - Technology & Money

- [Economic Outlook: Are We Stuck With Slow Growth?](#)
Michael Walden, Ph.D., *North Carolina State University*
- [Killing the Golden Goose? The Decline of Science in Corporate R&D](#)
Sharon Belenzon, Ph.D., *Duke University*

Advanced Biomaterials

- [QMILK - The Most Innovative Combination in the Nonwoven Market](#)
Anke Domaske, *Qmilch Deutschland GmbH*
- [Enzymatic Polymerization: Designed PolySaccharides & Applications in Engineered Fabrics](#)
Natnael Behabtu, *DuPont*

Advanced Machinery

- [The Evolution of Lightweight Materials - And How to Run Them](#)
Christopher Nelson, *Curt G. Joa, Inc.*
- [One Process Many Solutions: Bonding of Lightweight Nonwovens](#)
Steve Bellavia, *Herrmann Ultrasonics, Inc.*
- [One Process Many Solutions: Bonding of Lightweight Nonwovens](#)
Markus Pasternak, *Herrmann Ultraschalltechnik GmbH & Co. KG*

Industry Update

- [Government Affairs Update](#)
Jessica Franken, *INDA, Association of the Nonwovens Fabrics Industry*
- [Market Dynamics and Trends That Are Driving Innovation in Nonwovens](#)
Brad Kalil, *INDA, Association of the Nonwoven Fabrics Industry*
