

# NONWOVENS TRAINING COURSE

3.5 DAYS

# FABRIC PROPERTY DEVELOPMENT AND CHARACTERIZATION

How are certain nonwoven properties achieved and measured? Take this course and find out!

This course provides an in-depth understanding of how the most important nonwoven fabric properties are achieved and how they are measured. Properties such as tensile, basis weight, compressibility, softness, fiber orientation, distribution and diameter, moisture and vapor transmission, and flammability are considered. Learn how nonwoven fabric properties are developed, measured and controlled.

## **INSTRUCTORS**

Amy Minton, Physical Testing Lab Manager, The Nonwovens Institute

David Nelson, Industrial Extension Specialist, The Nonwovens Institute, 3M, (retired)

**Behnam Pourdeyhimi**, Ph.D., The William A. Klopman Distinguished Chaired Professor of Materials in the College of Textiles at North Carolina State University and Founding Executive Director of The Nonwovens Institute

**Eunkyoung Shim**, Research Assistant Professor, The Nonwovens Institute **Hechmi Hamouda**, PE, Professor, Textile Engineering Program Director **Wendy Krause**, Associate Professor, TECS

Nicholas Rider, Senior Applications Scientist, Nanoscience Instruments, Inc.

### **3.5 DAYS**

INDA/NWI Members: \$1,795 Non-members: \$2,295

#### WHEN

October 8-11, 2019

#### **WHERE**

NC State University
The Nonwovens Institute
1020 Main Campus Drive

1020 Main Campus Drive Raleigh, NC 27606

Multiple registrants from the same company receive a discount.

## **TOPICS COVERED INCLUDE:**

- · Nonwoven testing and test methods
- · Microscopy and imaging
- · Aerosol filtration evaluation
- · Liquid filtration evaluation

# THIS COURSE IS DESIGNED FOR

professionals seeking an advanced knowledge of nonwoven fabric properties and measurement involved with:

- o R&D
- Manufacturing
- Product development
- Production management
- Maintenance and plant engineering
- Technical sales and marketing
- o Process engineers
- Quality control

A COMPREHENSIVE REVIEW OF THE SPECIFIC PROPERTIES OF NONWOVENS, AND HOW TO ACHIEVE AND MEASURE THEM.
