

Table of Contents

Table of Contents.....	1
List of Figures	3
List of Samples	5
Foreword	9
A. Nonwovens.....	11
A1. Markets and Products.....	12
A2. Nonwovens Process.....	14
A3. Nonwovens Web Formation Overview	15
A4. Nonwovens Bonding Methods Overview	16
B. Staple Fiber	17
B1. Drylaid.....	19
B1A. Needlepunch	23
B1B. Stitchbond.....	25
B1C. Hydroentanglement.....	27
B1D. Thermal Bond	29
B1E. Chemical Bond	31
B2. Wetlaid.....	35
B3. Airlaid Short-Fiber.....	37
C. Resin	39
C1. Spunlaid	40
C1A. Spunbond.....	41
C1B. Meltblown.....	43
C1C. Spunmelt.....	45
C1D. Other Spunlaid Processes.....	47
D. Other Materials	51
D1. Nonwoven Composites.....	51
D2. Supporting Materials	53
E. Appendices	55
E1. Appendix: List of Contributors	57
E2. Appendix: Table of Materials.....	59
E3. Appendix: Nonwoven Definitions	67
E4. Appendix: End-Use Classifications	71

List of Figures

Figure 1.	Disposable Nonwoven Products.....	12
Figure 2.	Durable Nonwoven Products.....	13
Figure 3.	Nonwoven Process Flow Chart.....	14
Figure 4.	Bicomponent Fiber Cross-Section	17
Figure 5.	Bicomponent Fiber Web.....	17
Figure 6.	Various Fiber Bales	18
Figure 7.	Bale Breaker Illustration	19
Figure 8.	Staple Fiber Mixing Plant Layout Illustration.....	20
Figure 9.	Single Cylinder Carding Machine Illustration	21
Figure 10.	Aerodynamic Web Formation Illustration.....	22
Figure 11.	Needlepunch Needle Board.....	23
Figure 12.	Needlepunch: Double-Board Loom Process Illustration	23
Figure 13.	Stitchbond: Stitching Process Illustration.....	25
Figure 14.	Stitchbond Line	26
Figure 15.	Hydroentanglement: Belt/Wire Mesh Conveyor Process Illustration.....	27
Figure 16.	Hydroentanglement: Dual Entangler and Drum Process Illustration.....	28
Figure 17.	Thermal Bond: Calender Bonding Process Illustration	29
Figure 18.	Thermal Bond: Through Air Bonding Process Illustration	29
Figure 19.	Thermal Bond: Ultrasonic Bonding Process Illustration.....	30
Figure 20.	Thermal Bond: Infrared Bonding Process Illustration	30
Figure 21.	Individual Fibers with Chemical Bond Illustration.....	31
Figure 22.	Chemical Bond: Foam Padder Process Illustration.....	32
Figure 23.	Chemical Bond: Powder Bond Process Illustration	32
Figure 24.	Chemical Bond: Dip & Nip Process Illustration.....	33
Figure 25.	Chemical Bond: Gravure Printing (Print Bond) Process Illustration	33
Figure 26.	Wetlaid: Inclined Wire Forming Process Illustration.....	35
Figure 27.	Airlaid Short-Fiber Hammer Mill.....	37
Figure 28.	Airlaid Short-Fiber: Single Forming Head Process Illustration	38

Figure 29. Polymer Chain Illustration	39
Figure 30. Spunlaid Bicomponent Filament Shapes	39
Figure 31. Spunbond: Single-Beam Process Illustration	41
Figure 32. Meltblown Fibers	43
Figure 33. Meltblown: Single-Beam Process Illustration	44
Figure 34. Spunmelt (SSMMMS) Line	45
Figure 35. Kimberly-Clark Coform Process Utilizing Pulp	48
Figure 36. Cross Laminated Coextruded Filaments Process Illustration	49
Figure 37. Netting Extrusion Line	53
